G. A. Bartlett contested Peter Breen's election for District Attorney. Breen won by 11 votes.

A Pointed Reply.

The other day Mr. De Young sent for a member of the California Assembly and asked him how he was going to vote for U. S. Senator.

Well, I don't know," said the legislator, "but my constituents will throw a stone at me if I vote for you."

Death of Joe Stark.

Joseph Stark, who has been sick for some time, and once reported dead, passed away at 3.45 p. m. yesterday. He was a native of Switzerland, aged 23 years. He will be buried in Virginia City tomorrow.

In Washington it is said to be well known that Senator Jones, of Nevada, is all ready to make a hop, skip and jump back into the Republican party.—Tribune.

This rumor must have sprung from the same crank who said last spring that Jones was coming to Nevada to reorganize the Republican party here.

JAMES MEANS SHOES.

I AM SELLING JAMES MEANS SHOES.

These shoes have the retail price stamped on the sole, and they cannot be sold a higher figure.

Once purchased you always call for them.

There are three grades, 3, 4, 5 dollars, equal to other shoes selling from 6 to 9 dollars. Frisco dealers hardly handle them as the profit is so small. Carson people dealing in Virginia City will do well to call on Robert Cleator.

Fair's funeral took place in San Francisco Friday. There was an absence of pomp ceremony and crowds.

John Sullivan has been on another big bender in Terra Haute. He had to grab a room to keep from falling off the earth.

The APPEAL has received one of the Winchester Fire Arms calendars. The two pictures drawn by Remington are gems.

Two out of the six of the big smoke stacks at the Union Con works at Virginia were blown down in the recent wind storm.

More remarkable gains can be had with W. I. Day. He has just received heavy clothing from the East and can rig you out cheap.

The weather is reported as being exceedingly cold throughout the north California and Oregon. We will be sure to get our share of it.

The legislative session begins Jan. 21 and lasts but forty days. If the law makers wish to remain longer they have to do as at their own expense.

There were this Christmas season 131,960 money orders sent from the United States to the Old World, many as remembrances of "the old folks at home."

The fire alarm last night was sounded through a mistake. The church bell and the Warren Engine bell ringing at the same time led the Curry company to sound alarm.

Geo. J. Lamy has just started his violin class for the fall term. If you want to study that king of all instruments under the most rapid system known, consult that popular young orchestra leader and teacher.

There are numerous applicants from this county for positions. If some of them had worked as hard for the Silver ticket in November as they are now working for places, every man on the ticket would have been elected.

To conceal his bald head, ex-Vice President Morton wears fur wigs a month. They are graded with such scientific accuracy that each one is a shade longer than its predecessor. The general eye it appears that Mr. Morton's hair begins to grow on the first of the month.

Here is an example of how easy it is to break New Year's resolutions. Twelve young ladies met on the first day of 1894 and vowed never to marry. Nine were married before seven months, and two others have broken off promise suits on their hands. The other died.

FRANCIS L. NASH, Pastor.

It never thus and always was. Most of the men however elected on the Silver ticket are State delegates, and have sufficient faith in the State to keep them here when they go out of office.

THE BEST PAYING MINE.

AN EXTRA DIVIDEND OF \$1,200,000

The biggest gold mine in the world is now being worked in Wall street, New York. Originally a surface mine it has developed into a well extended ledge of unusual size, and is being worked for all it is worth. No mining machinery is being used there are no assessments.

Last month a dividend of \$1,200,000 was declared on one week's operation, in addition to the regular profits. Neither the Union of Los Angeles nor the Kennedy of Amador can compare with the profits derived from the Wall street mine, and the whole full yield of the Wall street mine is only a pocket when compared with the forest of free gold, 990 fine, that is produced in the numerous workings of the clever Eastern syndicate.

In after years when the marvelous tales of 49 are read to unbelieving ears, it may be that the mines of '94 will be but a myth. But at present they are a monopoly and are protected by the highest officials; whenever the profits are not up to the average of the past participants in the scheme, a little enlivener known as "a bond issue" makes merry the minds of the manipulators. It is not a wildcat mine, this gold discovery of Wall street, but it is a dishonest method of mining, and lesser suppression. Strict compliance with the national law (which in this case runs in a parallel line with common sense) would summarily end this swindle game, which discredits the government and those of the government's servants who make such methods possible.—Mining and Scientific Press.

Zadkiel's Prophecies.

Zadkiel the astrologer's out with his prophecies for the coming year. They consist of the same old saws about coming events that have been dished up for years past.

He has a regular assortment of earthquakes, famine, war and pestilence with some terrible spells of weather thrown in. There never has been a time since the world began to bump itself along the live pain of action that there hasn't been all these commonplace things, and he tries to repeat itself as long as Time leaves the ball to his feet. There are numerous people who will pay good money for these forecasts of futurity, and the APPEAL regrets to say that with the advancement of civilization on the footstep gets none the less. In fact there are more omens on this question than ever before.

Local Minstrels.

On the 28th of January, J. P. Meder will give the grand entertainment for the benefit of the Public School fund, in the shape of a minstrel show, composed of homely talent. H. K. Brown will act as interlocutor and Oliver Tennant, Lyman Friable, Jim Meder and R. S. Meder as the end-men, and many other local lights who will take part. The stage is being for the first part we are informed will surpass anything ever seen in Carson before. An orchestra of nine pieces will furnish the music for the occasion.

Wedding Gifts.

The APPEAL'S Mound House correspondent says that the town has not yet recovered from the hilarity at the wedding at Calvert's. He sent the following list of presents:

Groom to bride gold watch, oak table, hand-painted sofa cushion, one half dozen silver spoons, silver butter dish, carving set, silver crystal and safa cushion, china dinner set, shaving set, set silver knives forks and spoons, clock, glass water set, a set sugar dish and spoon and a silver butter dish. These things were added by numerous friends.

Want Mills to Resign.

Fort Worth, Texas, January 4.—A resolution, which will be introduced in the next Legislature, has been framed here requesting Senator Mills to resign his seat in the Senate on the ground that he does not represent Texas, and setting forth that he has refused to endorse Texas men for positions and declined to interest himself in having a national bankruptcy law passed.

The Genoa Courier speaks of a boy who "ran a splinter into his leg just below the thigh." Ordinary speaking, the legs that portion of the body between the knee and the ankle.

THE TRIBUNE ROASTED.

OUR EVENING CONTEMPORARY NEARLY BURNED UP.

Yesterday morning when Ed. Benedict, an employee of the Tribune opened the office door about 7 o'clock he fell back in the street, met by a blinding volume of heat and smoke which struck him in the face. He was unable to enter and accordingly went to Mr. L. upon the proprietor, who, with the assistance of Budd Barkley, got up the Curry house cart and brought it down. The three then stuffed blankets in the room, and crawling on all fours reached the stove and found the floor burning.

The fire had extended to the press, and burned up four new composition rollers, besides some office furniture.

Joe Muller also went in and at great personal risk saved the office.

He will be awarded a leather medal at the next meeting of the Curry Company.

The fire had been caused by a strong wind blowing down the chimney and throwing live coals out of the stove onto the floor, where the fire had smoldered for some hours. The loss was about \$100.

The press of the APPEAL was at once tendered to the Tribune for use until its own is repaired.
